Looking Toward Christmas

THE curtain has fallen on Thanksgiving Day. It is already rising on Christmas. Holiday goods are being revealed all over the store, and through it all the festive spirit is pervasive. Thousands are already enjoying the holiday store attractions, and echoes of appreciation are coming to us from many directions.

Through it all, remember that our prices are always made in the retail buyer's interest. This must be so. We could not afford it otherwise. Would you pay us more than a competitor would charge? Of course you wouldn't. What then becomes of the allegation that our system of business is costly, and that prices must be higher? In some respects we have the most economical business in this city. Couple the price fact with its twin-the most complete stocks. You'll then know where your interests as a retail buyer are best protected.
